PHOTOGRAMMETRY

September 10, 1964

To: Members of the ASP PI Awards Committee

Several deadlines for award selection are getting closer. The first of these is:

December 1, 1964 - Date of first ballot on Autometric Award.
This is when we narrow the field to three finalists. (Must be done by December 15.)

With reference to the Autometric Award, we should all remember our obligation to check all of the journals and bulletins of the "national engineering or scientific societies". So far, your replies indicate that the following journals have been checked:

Photogrammetric Engineering
Photographic Science and Engineering
Journal of Forestry

I am sure that other journals have also been checked but no one has specifically told me so. Therefore, please let me know which journals you have checked so that I can relay this information to the other committee members. Also, if you know of journals that should be checked but are unavailable to you, let me know. Somebody else probably has access to that publication. Remember, too, that the Autometric Award will go to the author of an article that was published in calendar year 1963.

Nominees for either the Autometric Award or the FMA Award can be sent to me at any time. I will in turn pass the list of nominees on to the rest of the committee.

If anyone cares to do so, there is no reason why you should not contact friends and associates with requests for nominations for either award.

Sincerely,
